Passed by the Academic Affairs Meeting on October 4, 2012

Being amended by Tai Wen (2) Tze Letter No. 1010196483, issued on October 18, 2012

- Article 1 **In order to openly conduct admission test for foreign students, “Tainan National University of the Arts Regulations Regarding International Student Undertaking Studies in Taiwan” (hereinafter referred to as “Regulation”)** is established in accordance with Article 6 of the “Regulations Regarding International Students Undertaking Studies in Taiwan,” issued by the Ministry of Education (MOE).
- Article 2 An individual of foreign nationality, who has never held a nationality status from the Republic of China and who does not possess an overseas Chinese student status at the time of his/her application, is qualified to apply for admission under this regulation. An individual of foreign nationality, pursuant to the following regulations and who has continuously stayed overseas for no less than 6 years is also qualified to apply for admission under this regulation. However, an individual who plans to apply for study at a department of medicine, dentistry or Chinese medicine must have continuously stayed overseas for a period no less than 8 years.
1. An individual who has a nationality status from the Republic of China at the time of his/her birth but does not hold a household registration must state this on his/her college application.
 2. An individual who has had nationality status from the Republic of China but has no R.O.C. nationality at the time of his/her application shall have an annulled status regarding his/her R.O.C. nationality for no less than 8 years after an annulment of his/her R.O.C. nationality by the Ministry of the Interior.
 3. Regarding individuals mentioned in both of the above subparagraphs, they must not

have studied in Taiwan under the status of an overseas Chinese nor received placement permission for an academic school year by the University Entrance Committee for Overseas Chinese Students.

According to the Education Cooperation Framework Agreement, a foreign national who was selected by a foreign government, organization, or school, and does not hold a household registration from the time of their birth is not subject to the limitations as prescribed in the preceding 2 paragraphs after receiving the approval from the designated authorized government educational institutions.

The six and eight year calculation period as prescribed in Paragraph 2 shall be calculated from the starting date of the semester (Feb. 1st or Aug. 1st) as the designated due date for the time of study.

“Overseas” as prescribed in Paragraph 2 is limited to countries or regions other than Mainland China, Hong Kong and Macau; the term “continuously” means that an individual may stay in Taiwan for no more than a total of 120 days per calendar year. The only exceptions to this method of calculation are for those who fulfill one of the following requirements with written supportive proof:

1. Attended overseas youth training courses organized by the Overseas Compatriot Affairs Council or technique training classes accredited by the Ministry of Education (the “Ministry”);
2. Attended a Mandarin Chinese language center at a university/college of which foreign student recruitment is approved by the Ministry, and to which the total length of stay is less than 2 years;
3. Exchange students, whose length of total exchange is less than 2 years; or
4. An Internship in Taiwan which has been approved by an authorized central government agency, to which the total length of stay is less than 2 years.

An individual, who has both foreign and R.O.C. nationalities and has applied for an annulment of his/her R.O.C. nationality before Feb. 1st, 2011, the effective date of amendment of the Regulations, is then qualified to apply for admission under the original regulation as an international student and is not subject to the limitation as prescribed in Paragraph 2.

Article 3 An applicant of foreign nationality, concurrently holding a permanent residence status in Hong Kong or Macao, having no history of a household registration record in Taiwan and, at the time of application, has resided in Hong Kong, Macao, or another foreign country for no less than 6 years is qualified to apply for admission under these regulations.

The term “reside overseas continuously” mentioned in the preceding paragraph means an individual may stay in Taiwan for no more than a total of 120 days per calendar year. However, such a term may be exempt, if any of the conditions prescribed in Subparagraphs 1 through 4, Paragraph 5 of the previous Article applies and is supported with written proof, and the said domestic length of stay shall be excluded from the

overseas length of residency.

An applicant being a former citizen of Mainland China and holds a foreign nationality, having no history of household registration record in Taiwan, and at the time of application, has resided overseas continuously for no less than 6 years is qualified to apply for admission under these regulations.

The term “reside overseas continuously” means an individual may stay in Taiwan for no more than a total of 120 days per calendar year. However, such a term may be exempted if any of the conditions prescribed in Subparagraphs 1 through 4, of Paragraph 5 of the previous Article, applies and is supported with written proof, and the said domestic length of stay shall be excluded from the overseas length of residency.

The six-year calculation period as prescribed in Paragraph 1 and Paragraph 3 shall be calculated from the starting date of the semester (Feb.1st or Aug.1st) as the designated due date for the time of study. The term overseas as prescribed in paragraph 5 in previous article shall apply to paragraphs 1 to 4.

Article 4 Upon completion of the course of study at a school in Taiwan for which an international student has applied, the student may proceed to seek admission to programs offered by TNNUA and thus should follow application procedures as regular local students do. However, if they are seeking admission to higher academic levels, such as graduate schools, they shall follow relevant regulations for admission to their respective graduate programs.

Article 5 The number of openings for international students that TNNUA intends to recruit and eventually accept is additional to the MOE approved quota for recruiting students of the pertaining academic year. The number is limited to no more than ten percent of the number of ROC citizens admitted that year, and shall be reported with the total number of students recruited to the MOE for approval.
If the quotas for admission, which have been allocated for local students have not been filled, a university/college may give the quotas to international students according to the total number of designated yearly positions that is open for international students. Where the preceding paragraph refers to the number of international students recruited, the figure shall not include international students not registered as degree students.

Article 6 **TNNUA international admission shall be done in accordance with the Regulation.**
TNNUA shall set up the International Student Admission Meeting including the Dean of Academic Affairs (as the convener), the Dean of the Colleges, the Chair of the Departments, the Director of Accounting and the head of Recruitment Division of Department of Academic Affairs. 3. Validated financial statement certifying sufficient funds for the student's education in Taiwan or certification of full scholarship provided by the government, educational institution or other private organizations.

4. Other documents as required by the Department.
